PERFECTION IN LUXURY

Mark Asplin Whiteley aims for perfection at the luxury end of furniture and fitting markets. Producing high quality bespoke furniture for luxury residences, hotels, commercial properties and superyachts, the team is adept at developing skills and exploring innovative modern technologies to support the designer client. Mark Asplin Whiteley offers an outstanding service and open communication during the design and the manufacturing processes. Working with exclusive and highly talented furniture designers and interior designers, the company is well reputed for manufacturing furniture and installations to the highest quality, on schedule and on budget. A comprehensive understanding of the creation process and longstanding relationships with existing clients, means that Mark Asplin Whiteley can achieve the highest standards of quality in the craft of furniture making. Many of the craftsmen have been part of Mark's

team for over 25 years, making furniture that is striking and unique. Each final product is the result of masterful design, informed choice of materials used, appropriate methods of construction, together with the overall form and finish. The company works with a wide range of materials, including, timbers and veneers, metals, glass, stone, resins, leathers and many varied applied specialist finishes. The incorporation of marquetry, inlaid metals, sophisticated mechanical features and secret compartments serve to create subtle interesting focal points for often highly complex pieces of furniture and luxury joinery. Mark Asplin Whiteley is also experienced in designing kitchens, quality joinery and has recently upgraded equipment to further extend its portfolio, including adding a 5-axis CNC machine to its workshop.
